

Sweet Home SD (2023-24)

Post School Outcomes (B14)

This is an improvement indicator which means districts are required to meet state targets. Districts are responsible for conducting PSO interviews with students who left special education the previous school year and submitting interview data in the PSO 2.0 application.

Districts are flagged if one or more of the targets are not met and should use this information for their self-analysis:

Table 1:

- B14 Response Rate <85% (Table 1--Response Rate Column)
- B14 "No Attempt Documented" >0

Table 2:

Data from Table 2 is available for district planning purposes, but will not be used to determine flagging this year.
